

Dominique Dubois

Dr Dominique Dubois, Physician Specialist in Pharmaceutical Medicine, is Senior Lecturer in Pharmacoeconomics and Patient Reported Outcomes Research and Vice-Chairman of PHARMED, the 'Post-graduate Programme in Pharmaceutical Medicine and Medicines Development Sciences' at the University of Brussels (ULB). He is the author of more than 50 publications in peer-reviewed journals.

He has held different leading positions within the pharmaceutical industry where he was particularly involved in the advancement of health economics and patient reported outcomes (PRO) research. He is recipient of several Standards of Leadership awards and winner of the Johnson & Johnson 2002 Pharmaceutical R&D golden award for Innovation at Work.

He was an external validator of the guidelines for pharmacoeconomic evaluations in Belgium (2008). He has contributed to initiatives shaping the international regulatory environment, such as the FDA PRO draft guidance and the European Medicines Agency reflection paper on the regulatory guidance for the use of health related quality of life measures in the evaluation of medicinal products.

He graduated as a medical doctor from the Catholic University of Leuven in 1975. After 3 years of medical practice he started his career in the pharmaceutical industry and grew into an internationally renowned physician specialist in the field of Pharmaceutical Medicine. From 1984-1992 he was President of the 'Belgian Association of Pharmaceutical Physicians' – BeAPP. In 2006 he became board member of the 'Faculty of Pharmaceutical Medicine of the Royal Colleges of Physicians of the United Kingdom'. He is also an active member of IFAPP's 'Council for Education in Pharmaceutical Medicine'.
