

Kyoko Imamura

Dr Imamura graduated from Kumamoto University Medical School in 1982, and started training at Department of Orthopedic Surgery, Jikei University School of Medicine, Tokyo. She also studied cellular biology and obtained Dr of Medical Science degree in 1989. While continuing clinical practice, she has furthered her interest in outcomes research and studied at London School of Hygiene and Tropical Medicine, University of London, UK, where she got PhD in 1995. Since started as the Japanese project manager of global outcomes study, her career expands from clinical development to medical affairs, business development and scientific communications.

She's served as the first president of JAPhMed (Japanese Association of Pharmaceutical Medicine) since its incorporation in 2009 and as President Elect of IFAPP (International Federation of Associations of Pharmaceutical Physicians and Pharmaceutical Medicine) since 2016. At present, she's project professor at Pharmaco-Business Innovation, Graduate School of Pharmaceutical Sciences, the University of Tokyo.
