

Taruho Kuroda, PhD

Alliance Manager / Senior Scientist

Open Innovation Center Japan

Pharmaceuticals Division

Bayer Yakuhin, Ltd.

Taruho Kuroda received his Ph.D. from Hokkaido University Graduate School of Pharmaceutical Sciences. He completed his postdoctoral fellowship at Dana-Farber Cancer institute which is an affiliate hospital of Harvard Medical School in Boston MA USA, seeking for a novel therapeutic approach for cancer treatment. Currently he works as an alliance manager at Open Innovation Center Japan within Bayer Pharmaceuticals division. He has been contributing to foster Bayer's open innovation through partnership with external parties. More precisely, he is responsible for establishing and managing early stage drug development partnership between Bayer and academic institute/start-ups in Bayer's focus areas such as Oncology, Cardiology, Gynecology and Biomarker.
